Parquet:

- Hardwood Parquetting are very common and in high demand in sports arenas. It's still in high demand due to its properties such as superior rigidity and uniformity, thermal insulation, resistance to wear, better shock absorption compared to concrete and asphalt, non-allergic, etc and many more.
- For sports flooring, hardwood flooring ranging from 8mm above are used.

PVC Mat:

To uplift the athletes performance, they need to be confident in themselves and the products they use. PVC flooring is engineered for its shock absorbing properties, increased resistance, water proofing, anti-bacteria, etc and many more. PVC Flooring are also known for their durability and good finishing.

PVC Flooring nowadays are used in almost all kinds of sports ranging from racquet sports, combat sports, ball sports, gymnasium and fitness centres. PVC Mat comes with different pattern, texture, thickness depending upon intensity of use. Normally the thickness ranges from 3.5mm to 8mm.

Recreational and Sports Centre:

Crates builds all kinds of Recreational and Sports centres. We analyze, plan and design with the help of professional experts. Finally executing the project at the right time delivering the best products/services.

Recreational Sports:

Building recreational centres enhances the quality of life in our communities, whether its fitness, thrill, adventure or career development. There is something little for everyone.

We help entrepreneurs achieve their dream business into reality by providing necessary resources to accomplish their immensable goals/success.

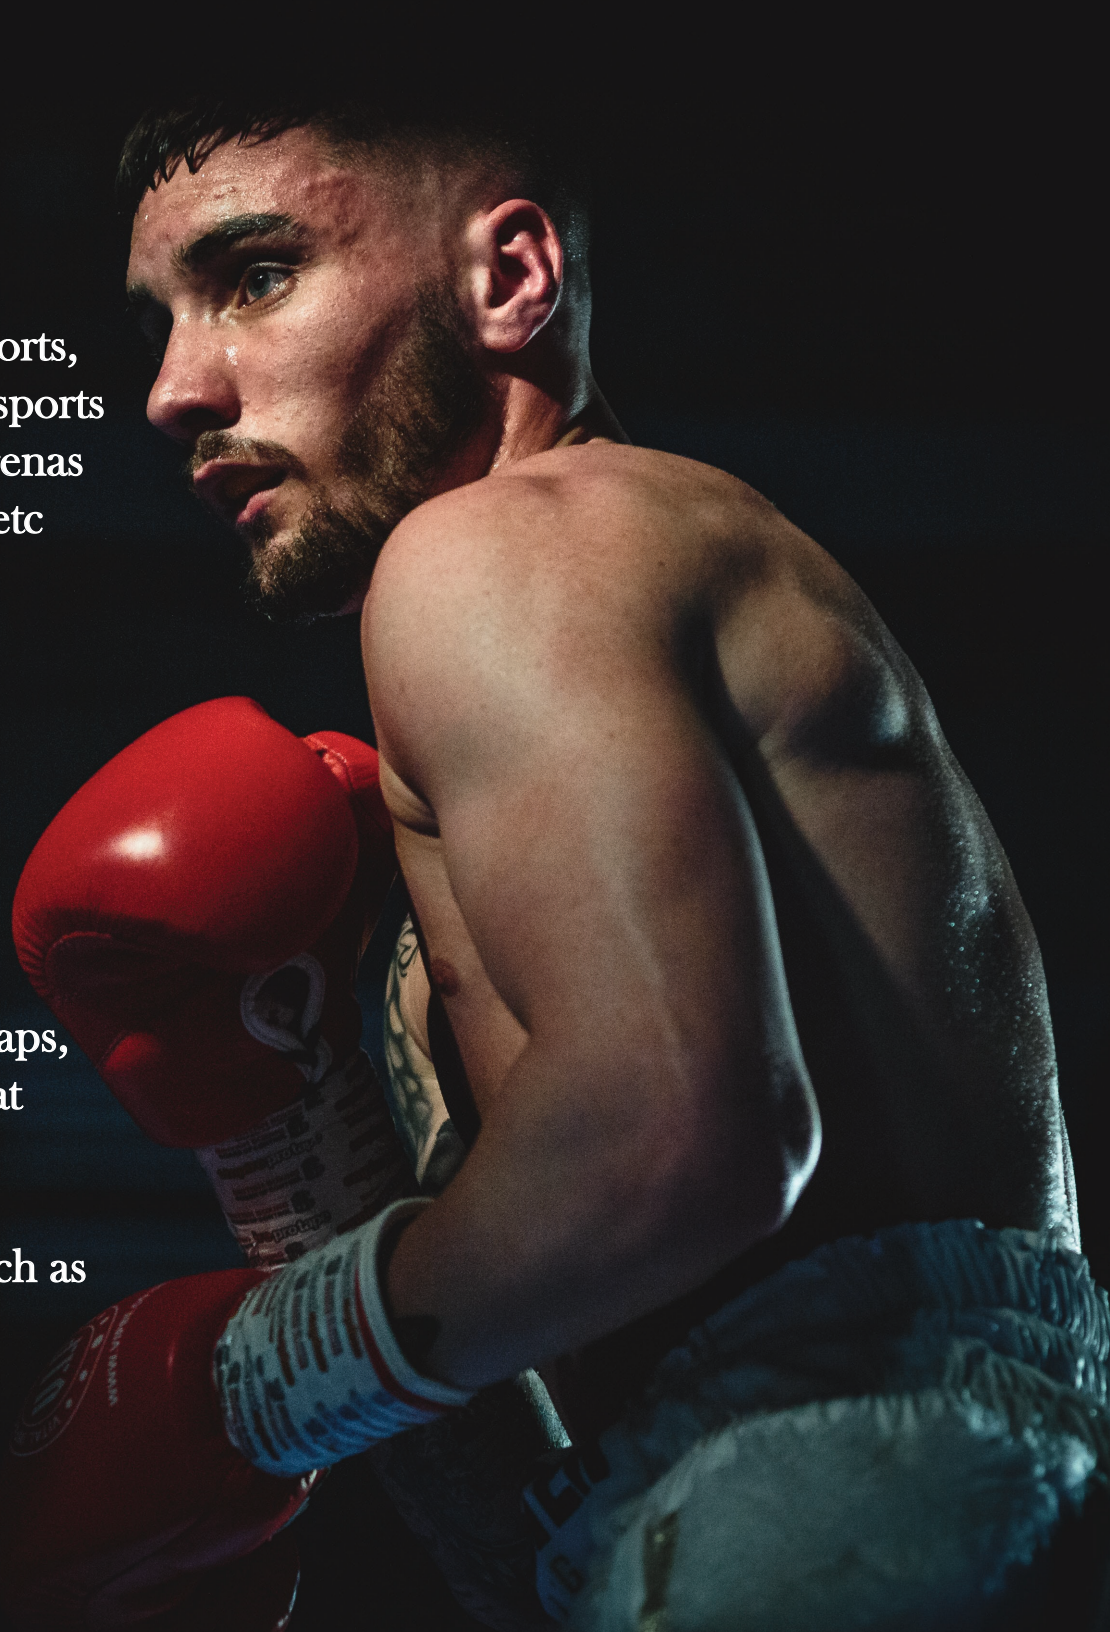

Combat Sports:

Crates caters to almost all kinds of Combat Sports, i.e armed or unarmed. Apart from traditional sports Crates delivers products required in fighting arenas such as Boxing ring, Octagon cage, Judo mat, etc to training equipments such as punching bags, speed bag, spinning bar, reflex balls, etc.

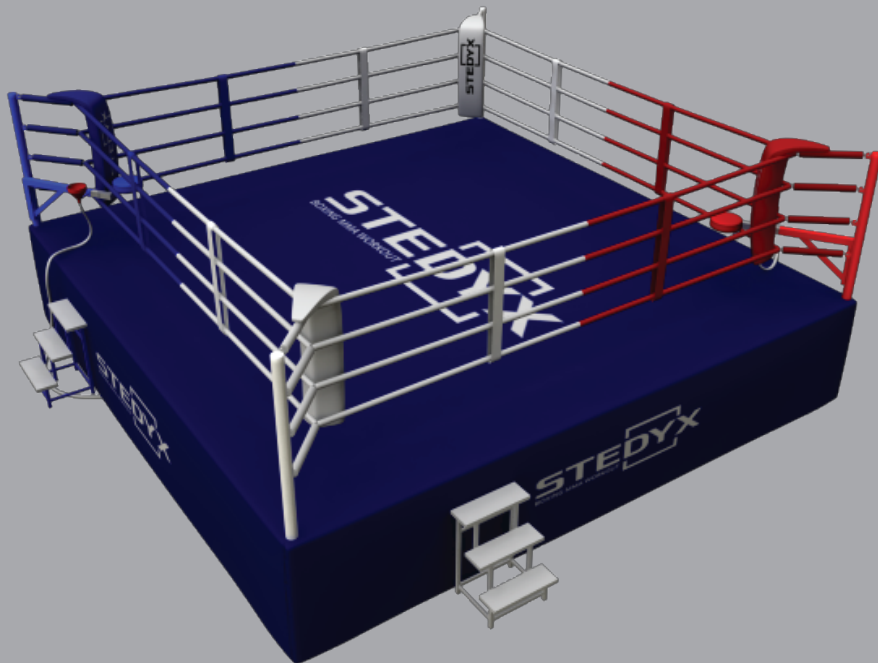

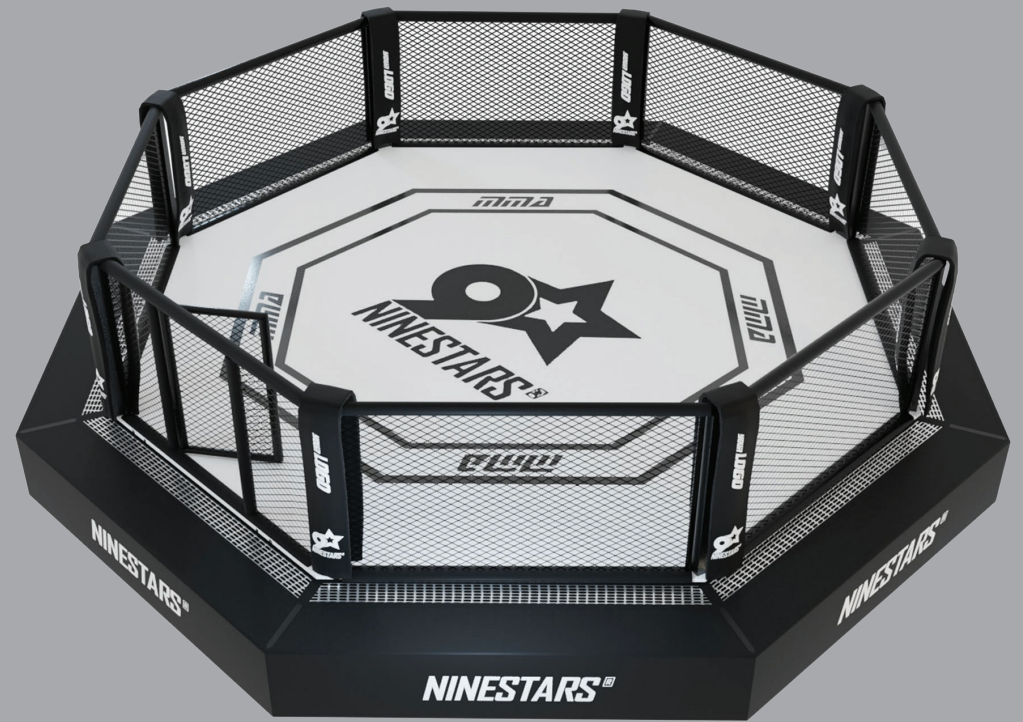

Protective gears such as head gears, guards, wraps, gloves, etc are also available to cater the combat sports enthusiasts.

We also help setting up the venue and other necessary products relating to armed sports such as Paintball, Airsoft, Lasertags, etc.

In today's uncertain world, self defense is a top priority. MMA is the one of the fastest growing spectator industry in the world.

Crates believes in providing the platforms so that sports entrepreneurs are able to tap into this opportunity where mixed martial arts enthusiast are able to learn, thrive and grow in this industry.

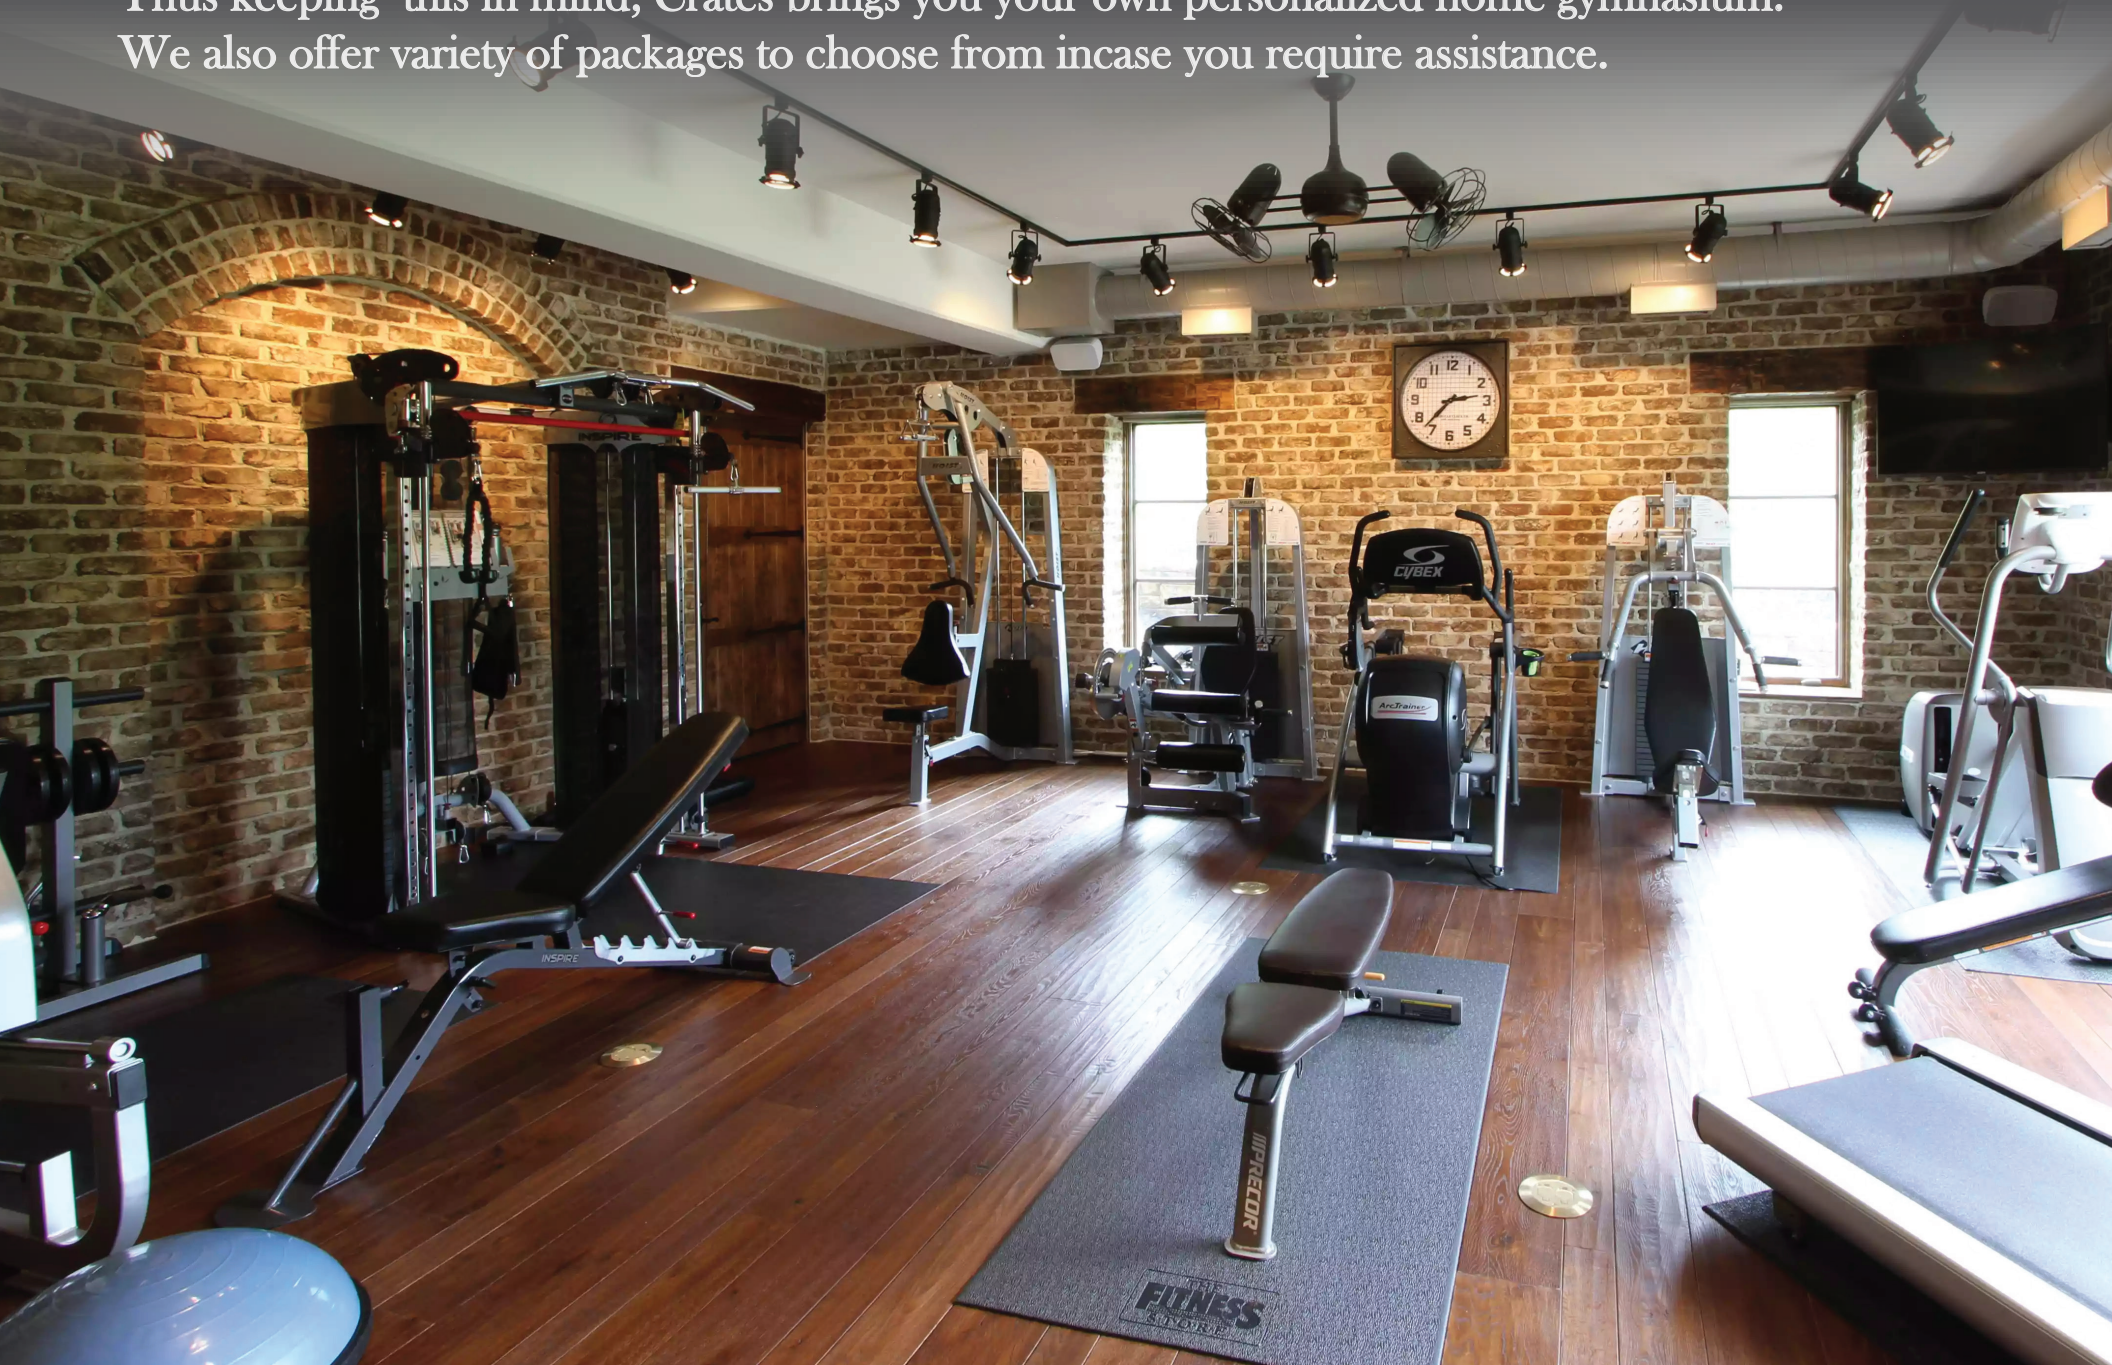

We construct fully equipped combat arenas along with changing rooms, washroom and many more. You can customize your fighting/training ring, cage, mats, etc of different sizes, colours and personalized logo.
